

Important Licensing Information for Those Applying for Multiple Initial or Additional Company Licenses

If you are applying for a BSIS company license using your BreEZe online account but already have one or more company license types linked to your BreEZe account, **you must submit a hard copy of the new company application to the Bureau.** Please visit the BSIS website [here](#), download or print the application for the new company license, and mail the completed and signed paper application to the Bureau. Once the license is issued by the Bureau, you will be able to link the new license type with your BreEZe online account.

If you have questions regarding this matter, please email BSIS by clicking [here](#).
